April 2021 - Present (2 years 10 months)
Jakarta Raya, Indonesia

Designing and creating applications using the Futter platform and collaborating with the UI UX team and the backend developer team, making innovations by making products that clients like.
Bug fixes and improve application performance and implement new technologies to maximize development, and maintain code quality.

Project Coverage:

Client : Product Yokke!

Project name : Yokke Biz Lite (Point Of Sale)

Position in Project : Flutter Developer

Responsibility : Development Mobile Application

Technology : Dart, flutter, MVVM, Dio, State Management GetX, OTP

Database : Oracle

- Daily Works :

Work as flutter developer team.

Continuously maintains and improves code to reduces boilerplate codes

Bug Resolution.

improve performance

Write code in DART flutter framework

Implement New/Change Request.

Implement GetX State Management

Implement Dio package

Redesign product

Flutter MVVM

API Integration

Payment Transfer bank integration

Qris payment integration

Developing follow design figma UI UX

Testing

Build and Compile

Project Coverage:

Client : BANK OCBC

Project name : Nyala Bisnis Merchant (OCBC QRIS)

Position in Project : Flutter Developer

Responsibility : Development Mobile Application

Technology : Dart, flutter, MVVM, Dio, State Management GetX, Firebase, OneSignal, OTP

Database : Oracle

- Daily Works :

Work as flutter developer team.

Continuously maintains and improves code to reduces boilerplate codes

Bug Resolution.

improve performance

Write code in DART flutter framework

Implement New/Change Request.

Implement GetX State Management

Implement Dio package

Implement OneSignal Notification

Redesign product

Flutter MVVM

API Integration

Integration MAAS system

Qris payment integration PTEN

Developing follow design figma UI UX

Testing SIT UAT

Testing release Testflight and firebase distribution

Build and Compile

Student Product Management
October 2022 - March 2023 (6 months)
Jakarta Raya, Indonesia

- Research, analyze, define product features
